### Role as an Architect:

As a part of the creative team, my role encompassed the transformation of ideas into physical realities through the meticulous preparation of drawings (including design development, tender and working drawings), comprehensive documentation (such as BOQ), and impactful presentations. I also conducted site visits for surveys, documentation, and mapping, ensuring project alignment. Additionally, I oversaw the onsite implementation and collaborated closely with team members, clients, consultants, and contractors, consistently reporting project updates to senior professionals.
